

2011 October 27 version – Memorials of Deeds

These are notes of memorials of deeds that I have looked at because they link in some way to the research I am doing. I have included links to deeds that I have already transcribed and annotated and posted on to my site. It is a very idiosyncratic list, reflecting my own research needs. In some instances, my notes are not as reliable as the transcriptions done by Nick Reddan and his team of volunteers. The deed material that I gleaned from his site includes the name of the volunteer appended in red.

NOTE: Anther pdf includes the deeds from 1700-1829.
