

## 2011 October 27 version –Early Memorials of Deeds

These are notes of memorials of deeds that I have looked at because they link in some way to the research I am doing. I have included links to deeds that I have already transcribed and annotated and posted on to my site. It is a very idiosyncratic list, reflecting my own research needs. In some instances, my notes are not as reliable as the transcriptions done by Nick Reddan and his team of volunteers. The deed material that I gleaned from his site includes the name of the volunteer appended in red.

**NOTE:** *I am beyond grateful for all those who have helped me with this work. A second pdf includes the deeds from 1829.*

Louth, leased to John Woods of Lisnisk, gent., "the fourteen tates in the Ballybetaghs of Ballyfremor and Loughwene or one of them". The lease was for lives, renewable forever on payment of a fine of 20 shillings on the fall of each life. The initial lives were John Woods, <b>Rev. Peter Jackson</b> (rector of KillinCool, Co. Louth), and <b>George Jackson, son of Peter</b> , aged 12 years or thereabouts. Yearly rent was set at 150 pounds. <sup>82</sup> By its term of lives renewable forever, this lease automatically gave John Woods a "freehold" in the property, equivalent to ownership in some respects, so that, for example, he and his heirs were eligible to help select parliamentary representatives.

						<a href="http://www.jstor.org/stable/27699393">http://www.jstor.org/stable/27699393</a> On October 30, 1724, Richard and Margaret Tenison, living in Thomastown, Co. Louth, leased to John Woods of Lisnisk, gent., "the fourteen tates in the Ballybetaghs of Ballyfremor and Loughwene or one of them". The lease was for lives, renewable forever on payment of a fine of 20 shillings on the fall of each life. The initial lives were John Woods, <b>Rev. Peter Jackson</b> (rector of KillinCool, Co. Louth), and George Jackson, son of Peter, aged 12 years or thereabouts. Yearly rent was set at 150 pounds. <sup>82</sup> By its term of lives renewable forever, this lease automatically gave John Woods a "freehold" in the property, equivalent to ownership in some respects, so that, for example, he and his heirs were eligible to help select parliamentary representatives.
